Currently, the university is offering 56-degree program to more than 2500 students from 8 countries and 27 states of India. The university has numerous partnerships with top industries and international educational institutes, ensuring the students get great exposure both nationally and internationally.

OBJECTIVE OF THE CONFERENCE

Academic Research is defined as a "Systematic investigation into a problem or situation, where the intention is to identify facts and/or opinions that will assist in solving the problem or dealing with the situation". The innovative research can significantly create an impact on academia, economy and society by contributing to capacity building: through technical and personal skill development.

The purpose of the Recent Trends in Academic Research Conference is to inspire, recognize and support research in the field of Business and Management, Economics and Finance, Engineering, Information Technology, Medical, Arts and Sciences. It aims to bring together researchers, academicians, scholars and students to exchange and share their experiences, new ideas, research results and discuss the practical challenges encountered and solutions adopted in the above said areas. CIIR supports a range of research activities and publication, which aim to stimulate curiosity, to inspire and develop future generations of research scholars, and to encourage appreciation of the social, economic and cultural value of these areas of study.
